**PLAINTIFFS' OBJECTION TO MOTION FOR EXTENSION OF TIME**

Plaintiffs object to Defendants' Motion for Extension of Time to respond to their discovery requests served on Defendants on August 2, 2019 to the extent that such Motion seeks to extend the time for Defendants to object to such discovery. Plaintiffs' do **not** object to an additional 30 days to answer those interrogatories and produce those materials requested as to which there is no objection.

This case challenges Defendants' failure to comply with state and local laws protecting children under 6 years of age from lead paint poisoning. To the extent that Defendants object to any discovery requests, time of the essence for the parties to discuss and resolve such objections without delay. Defendants have sufficient legal resources devoted to this case to be able to object to specific discovery requests within the sixty-day timeframe provided by Practice Book Sections 13-7 and 13-10.
